Thank you.

You're one of those little caterpillars weaving your cocoon, where economy and ecology, pleasure and future all rythme together !

Just like us, you know that it's through a series of small actions, however small they may be, that the metamorphosis takes place. Step by step, a new way of producing and consuming emerges... the beginning of a society that's different from yesterday's.

With this in mind, each of us moves forward, and together, we keep flapping our wings...

L ' e f f e t p a p i l l o n's mission is to offer high-quality, contemporary linens that are affordable for everyone, thanks to its fair trade partnership with **Oeko-tex-certified** factories around the world, which focus on people and ecology.

To minimize our impact on the environment, we limit the use of plastic and favor **sustainable, reusable packaging**. Most items come in simple kraft packaging, made from 100% recycled and recyclable materials. Larger products, such as cushions, seats are compressed in recyclable vacuum bag to optimize transport. Duvet covers and bed linen, meanwhile, are delicately packaged in a large cotton pouch. **A little gift from us to you !** Use it as a bulk shopping bag, a laundry bag when you travel, or a shopping tote for life's little odds and ends... The rest is up to your imagination, we trust you'll put it to good use !

Designed in **France**.

Gaia

Have you ever envied your little ones in front of so much softness ?

Naturally wrinkled and easy to live, say goodbye to ironing chores for a flawless bed. It's perfect as is, bringing an authentic, poetic touch to your bedroom with a hint of boho and vintage charm that will delight you !

You're sure to be crazy in love !

On the other hand, the **18 beautiful colors** won't make your choice any easier... But as they all go together beautifully, you'll be able to have fun mixing them for a rendering of the most beautiful effect ☺.

And because softness isn't just for the bedroom, **GAÏA can be found all over the house** and comes in turn sublimate the windows, tables and seats... even in the kitchen for the comfort of our little hands !

Be careful ! This collection isn't just soft and beautiful, it's **smart and clever too !** That's right !

Suspense...

Suspense...

Pssst, follow us...this way

Are you falling for the cotton gauze bedspread or the bed runner ? So are we !

And this is normal because, nowadays, it is no longer only used to warm up when the cold rolls in, but it is indeed a real element of decoration...the perfect final touch on your bed !

But why keep it only in the bedroom ? Have you thought about putting it on your bench or sofa ? Use it as a throw ? Or play mat for the little ones ?

And what about the rest then ?

Clip rings available separately !

The curtain ? What curtain ? Are you talking about this adjustable and versatile little gem ?

The one whose **size you can adjust according to your desires and needs** by folding the panel back on itself and adjusting the height of the flap created ? Whatever the ceiling height ? **No painful sewing ?** This curtain has several functions ? It can become **a tablecloth, throw or sofa throw** in the twinkling of an eye ?

So yes, it's indispensable !

Speaking of curtains, did you know we have gathered tapes ?

What a crazy coincidence : it's the one piece your home was missing ! And between us, it's just one more excuse to bring a little more cotton gauze into your life...

How cool is that ? Looks great, doesn't it ?

And since the joy of eating is truly a way of life...

The star of the table is this **trendy and bohemian tablecloth...** perfect for everyday use or any special occasion, no matter the mood.

At 2.5 and 3.5 meters long, it's just right for sharing warm, joyful moments with family or friends, around a delicious meal, a cozy brunch or a tea time !

Its elegant fall and soft waffle texture make it an ally of choice, not to mention the fact that ironing is out of the question. And honestly, that's a game changer !

Napkins, hand towels and aprons will complete the "look" in perfect harmony.

And what about the hand towel ?

It's nothing more than a baby nappy with a loop for hanging it up.
So ? Hand towel ? Nappy ? Favourite soft toy ?

What role will it pay in your home ?

Let's get back to those cute **little napkins** !

Sold in sets of 3, measuring 40x40 cm, they're **our precious everyday go-to**, and why not pair them with a classic napkin ring, just like in our childhood ? (and Ah, sweet nostalgia...) ! They're also **perfect for our Sunday table**, playing their "family spirit" role beautifully by giving it a timeless, refined touch. **Sometimes chic, sometimes bohemian, depending on the color(s) selected.**

And, in addition to being beautiful, they help **to reduce waste** : a quick ride in the washing machine with the rest of our laundry and, bang ! Clean napkins, ready to be used again. No ironing needed ! **Goodbye paper towels and paper napkins !**

Let's not talk much, let's talk well !

Have you heard of *Furoshiki* ? Or maybe "**upcycling**" ?

Think endlessly reusable **gift wrap** - **eco-friendly and budget-friendly** - and put your napkins, hand towels, or duvet cover pouches to good use !

To continue with the topic of **waste reduction**, we present the GAÏA waiter's apron, the latest addition to the GAÏA collection.

Come on ! Put on your **GAÏA apron in 100% cotton gauze** and unleash the Gordon Ramsey within !

So, let's get started today ?!

Indeed, what better than an apron **to get back into the kitchen** and protect our planet ? Because reducing the environmental impact also (and especially) starts on our plate !

But, besides, who said an apron was just for the kitchen ?

What about the aspiring artist and their paintbrushes, the weekend DIYer, the passionate gardener... or even the houseworkaholic ?

Its 110 cm long straps adapt to all morphologies and **its large double-pocket** can receive small tools, rags, snacks...

After bed linen, versatile curtains,
table and kitchen linen...

Time to the decoooooo.....

Psss... we've got a secret !

Word's spreading fast : from one kid to another... And they all agree on one thing : **Ponchos are super cool and super comfy.** Period .

But that's not all ! Made from four layers of cotton gauze (220 gsm), they soak up water in a flash and dry almost as fast (okay, almost). These ponchos are the perfect sidekick : in the bathroom, every day, or at the pool and beach ☺

Whether worn over pyjamas or as a bathrobe, whether they're 2 or 10 years old, whether they like blue or pink (#byestereotypes #hellocolors #unisexfashion), **your little ones are sure to find the one that was made just for them !**

And what about the adults ?!

Don't worry, we've got you covered !

You should know by now : at L'effet papillon, everyone's deserves their daily dose of softness.

*He, she or they... We believe everyone should **feel good** : in their home, and in their skin.*

And what better way to wrap yourself in comfort than with our Gaïa cotton gauze ?

A unisex cut, two sizes, six on-trend colors : that's all it takes to make us happy and to follow us anywhere life leads.

You've got it : the cotton gauze we love so much, so fluid and so soft, thanks to its light, breathable weave, is a dream to wear. It's **our everyday alter ego**, like a second skin : waking up, drying off, snuggling up, lounging around... all in style !

**And speaking of style...
What do you think of this stunning shirt tunic ?**

Buttoned up or open, tied or belted... it adapts to every look, whatever the occasion. So it's a must-have : whether as a bathrobe alternative, a dress, at the beach... or why not, in the city ?

Just like our bathrobes, it comes in two super flexible sizes and six trendy colors : no matter your taste or shape, everyone should be able to enjoy it.

In fact, with its straight cut and 3/4 sleeves, this shirt tunic isn't just for women... no, no ! It's been tested by some of the LEP team's young male butterflies, worn open over a t-shirt, and the result is totally cool 😊!

So gentlemen, will you dare to rock the long tunic ?

And what about bath linen ? Good idea or bad idea ?

Well, once again, Gaïa delivers, pampering all the way into the bathroom !

Guest towel, towel, shower towel and bath towel : 4 sizes of bath linen that go all out for you... lucky you 😊 !

With their 4 layers and their 220 gsm weave, Gaïa towels are irresistibly soft and light. **Their unique texture makes them compact, super absorbent, and quick-drying.**

Space-saving and efficient, cotton gauze bath linen **is your dream companion anywhere** : in the bathroom, at the gym, at the pool, or at the beach... And that makes us very happy !

Decorative

COTTON GAUZE

capsule

We're seriously craving spring, aren't you ?
We dream of being swept up in a whirlwind of colors and patterns !

This decorative collection brings no less than 8 vibrant printed designs, 5 shades of yarn-dyed gingham checks, and one delicate stripe.

There's something for every taste and color !
Now's the time for bold and playful mix & match combos : the more unexpected, the better ! We're fully embracing this mood where clashing, layering, and mixing styles are the new norm. The goal ? To create a space that's truly you. At least, we're reclaiming our home decor, and rightfully so !

And don't hesitate to pair these prints with our Gaïa collection - because yes, **everything is color-matched to the iconic 18 Gaïa colors** - with the lovely embroidered and yarn-dyed pillowcases from the **Gaïa pillowcase counter** : Boho, Chic, Match and Mix.

Beware, you might get swept away in this bucolic frenzy, dreaming of folklore and English cottages... BUT, and it's a big but, you can also keep things calm, simple, and slow.
And that's just as beautiful !

That's the very essence of this decorative collection : **it's why and how we created it, to offer you endless possibilities.**
Think : "one home, two vibes", as we like to say ☺.

WASHED LINEN

Home linen

100% WASHED LINEN

Soline

Did you know that linen is certainly one of the **very first textile plants** ever used to make fabric ? Some tiny traces of its fibers - thought to have been woven and even dyed - have been found dating back to the Paleolithic era !

And 38,000 years later, we're still weaving linen !

Whether for clothing or home textiles, linen is just so in ! As in : incomparable, indispensable, indestructible, in-style, incredible, infallible, inimitable... and yes, timeless ! Need we say more ?

But if that didn't already convince you, know that we **use premium-quality linen yarn**. Our flax fibers are **grown in France, certified European Flax**, and come from a zero-waste production process that respects the environment. The entire plant is used and nothing is wasted. No irrigation, no GMOs, quite a plus these days, wouldn't you agree ?

SOLINE is a 100% linen home linen collection (160 gsm), crafted from this noble and natural material that's highly absorbent and fast-drying. Two qualities you'll love daily in the kitchen, and even more so in the bedroom. Why Because **linen offers natural thermoregulatory, antibacterial, and hypoallergenic properties**, ensuring restful sleep with freshness in summer and warmth in winter.

When it comes to care, **SOLINE makes life easy : no need to iron**, it's at its best with its **naturally crinkled texture and soft feel that only gets better over time**. Short on time ? It loves the tumble dryer, which helps soften the fibers. But good old fresh air works wonders as well, for the fabric and the planet ☺.

So, ready to try the oldest textile experience of them all ?

Whether you're a perfectionist drawn to timeless, bright interiors or a nature-loving soul devoted to elegant slow-living atmosphere, our **bed skirt** is available in 2 versatile colors : craie, a crisp, luminous white, and sable, a pure, natural linen. Both are designed to pair perfectly with the 10 shades of the collection.

It comes in **3 sizes** to suit most beds : standard double (140x190 cm), queen size (160x200 cm) and king size (180x200 cm). There's something for everyone !

Curtains, bed runners and cushions add that little extra - the final touch, the unmatched charm - to your interior design, whether it's in the bedroom, living room or any other space.

The bed runner easily becomes a throw or a sofa blanket, while the curtain - adjustable thanks to its clip rings - enhances windows, patio doors or even dressing rooms.

Choosing linen means opting for a refined, timeless atmosphere while making a long term investment. Its durability and everyday practicality stand the test of time, no question about it.

Whether for everyday use or a special occasion, Soline tablecloths and napkins are our loyal companions through thick and thin !

Let's start with the downside - which isn't so bad after all - because linen is **so easy to live with and care for**. No stain can resist it, thanks to the strong fibers that allow frequent washing at high temperatures. You can entertain with peace of mind !

And now for the upside, the best part : its looks, of course ! **Unmatched elegance and timeless chic**. With just a simple tablecloth and a few napkins, Soline will enhance your decor and warms your home. It speaks volumes about **your lifestyle and hosting style**, like a personal signature.

Available in two lengths, 2.5 m and 3.5 m, with a generous drop and 170 cm width, the Soline tablecloth preserves the charm of country homes and family gatherings - places where good times are shared over great meals. **It fits perfectly both small and large tables.**

The napkins come in sets of 3, measuring 40x40 cm and can be folded in a thousand and one ways to suit any mood. Whether matched with the tablecloth or mix and matched, **they are perfect for everyday use as well as special occasions.**

Linen fibers are renowned for their high absorbency. This naturally hydrophilic fabric is therefore the perfect ally in the kitchen, especially for drying dishes.

Soline dish towels allow you to **dry all kinds of glassware and plates without leaving streaks**, while the apron - with its **adjustable sliding straps that fit perfectly to your shape** - protects your clothes from stains and splashes as you unleash your creativity (in the kitchen, garden, workshop or beyond) !

For cooking enthusiasts, nothing beats equipping yourself with beautiful linen tea towels and large aprons made of washed linen !

BAMBOO SATIN

Salomé

Do these fresh, silky sheets ring a bell ?
Yes, those from your last hotel stay !

Because really, who doesn't dream of recreating that perfect, ultra-comfy bed that invites instant relaxation ? Nobody, obviously...

In that case, bamboo satin is made for you !

Thanks to its dense weave of 120 threads/cm², **SALOMÉ is a bamboo viscose bed linen** with a subtly finish - lightweight and soft as silk, but far easier to care. Smooth (but not slippery !), breathable and low-absorbent, **it gently cares for your hair and skin all night long**, preventing friction and dehydration. Say goodbye to frizz and tight, dry skin and hello to cool, restful sleep.

With its luxurious and delicate look, bamboo viscose is surprisingly **robust and easygoing**. It can be washed at 40°C and ironed on low temperature, no need for dry cleaning like silk. It's even tumble-dryer friendly, through let's be honest - fresh air will always be the best option for our linens and for the planet.

Without a doubt SALOMÉ is your dream partner for a 5-star nights sleep.
Looks like you're about to get yourself into some seriously good sheets again...

LYOCELL

Lysandre

Ever heard of Lyocell ? TENCEL™ might ring a bell ? Still not sure ?
Well then ! How can we introduce you to this collection ?

To begin with, lyocell is a textile fiber made from **eucalyptus wood pulp**. And as you may know, eucalyptus is a fast-growing tree that thrives on rainwater alone. Perfect for us, since we're committed to producing **sustainable home textiles** !

No artificial irrigation, no deforestation of century-old trees, a non-toxic and recyclable solvent-based process, no bleaching required, and a fully biodegradable textile... These are the key elements behind lyocell's **minimal environmental impact**, or as it's more commonly known as Tencel™.

In fact, Tencel™ is the trademarked name - **awarded the European Environmental Prize in 2000** - while the term Lyocell refers more specifically to the **eco-responsible fiber made from eucalyptus satin**.

Lysandre is a silky, fluid, and ultra-soft lyocell bed linen - also known as eucalyptus satin - woven at 137 gsm. This breathable, thermoregulating fiber, helps your body stay cool in summer and warm in winter, ensuring restful nights wrapped in softness.

Lysandre is also available as an elegant, adjustable curtain. Lightweight and luminous, it adds a graceful flow to windows, wardrobes, or even as a tablecloth or sofa throw.

Easy to care for, this eco-friendly home linen is machine washable at 30°C and can be ironed at low temperature (if needed at all). When it comes to drying, a tumble-dryer works, but a breath of fresh air on a drying rack is even better, especially if you're trying to be kind to the planet.

MULBERRY SILK
Joanne

Bed linen

100% MULBERRY SILK
19 MOMME

Joanne

With a brand name like ours, how could we not offer you mulberry silk ? Why ? Because it comes from the cocoon woven by the silkworm... which is none other than the caterpillar of a moth ! More precisely, Bombyx mori, which feeds exclusively on mulberry leaves.

Mulberry silk is an exceptional natural fiber, born from ancient Chinese craftsmanship, a delicate and meticulous art that has become a true symbol of luxury and refinement. Frizz, tangles, brittle hair, redness, tightness, dry skin, runny nose, itchy throat and endless sneezing... The nightmare ends here. **Say hello to calm, serene nights !**

Your pillowcase, made from 100% mulberry silk and woven in 19 momme, is particularly recommended for sensitive skin, fragile hair and allergy-prone noses. It offers soothing comfort and deep, restorative sleep. Its extremely fine, smooth fibers provide a soft, luxurious drape while being non-absorbent, meaning they won't soak up your skin's and hair's natural oils. Even better : **they are naturally hypoallergenic and antibacterial**, unlike even the most popular cotton. So your pillowcase stays clean longer, and your skin and hair stay protected and hydrated, night after night.

And the benefits don't stop there : Mulberry silk is also **thermoregulating**, offering cool, calming freshness in summer and cozy warmth in winter.

To care for it, wash gently by hand at 30°C and iron on a low setting. When drying, fresh air is always best.

Wrap yourself in a silk cocoon every night, just like the little caterpillars we are. Who could say no to that ?

Bed linen

FLANNEL
100% COTTON

Candice

New ultra-soft quality 

Are you the type of person **with cold, chilly feet and all** ?

This winter, or even during a cool mid-season night, let yourself drift off to sleep wrapped in warmth and softness, snuggled into irresistibly cozy sheets.

CANDICE is a cuddly flannel bed linen made of 100% cotton (170 gsm), a fabric that somehow manages to be light and fine, yet incredibly warm and durable. Flannel is easy to care for : it's nearly wrinkle-free and doesn't need ironing, unless you enjoy it, of course ! If so, go for a low-temperature setting. To preserve the fabric's quality and softness, wash it inside out and separately. As for drying, line drying is best to keep it in top condition for many winters to come.

So now you've got everything you need to enjoy the **many benefits of this exceptional bed linen**, all winter long !

All that's left is to pick your favorite among its **8 timeless (yet delightfully on-trend) colors**, perfect for creating a warm, natural, and authentic atmosphere that brings you closer to nature and back to basics.

Tim & Tom

At L'effet papillon, we love it when sparks fly under the covers : a splash of color, bold patterns, and that little textile twist that sets the tone for the whole bedroom. But sometimes, all you need is a beautiful fabric and a timeless stripe.

Meet Tim & Tom, ours twins. Two styles, one spirit : the discreet charm of **100% cotton** bed linen that does it all, without overdo it. **Elegant, timeless stripes that suit any interior.** They're easy on the eyes, especially when the rest of the house is already a lot (think colorful living room, overexcited kids, plants barely hanging on... sound familiar ?)

Tim & Tom bring **texture and character** to your room with their **cotton front (345 gsm)**, and the soft touch we all love (and deserve) thanks to their **washed plain percale reverse (80 threads/cm²)**, no pillow-crease face in the morning.

As for formats, you're spoilt for choice : duvet covers, pillowcases, bed runners, you can dress your whole bedroom in **understated, stripy elegance.**

Torn between the two ? Don't count on us to help, we can't decide either !
Just between us : **you're goint to love them both !!**

The "Windowpane" pattern is the most minimalist of all check patterns. Unlike its more intricate cousins like Tartan, Prince of Wales or Gingham, the Windowpane focuses on simplicity to magnify any style with refinement : from the most contemporary to the most boho chic. So timeless, it pairs beautifully with solids and any other pattern, but most of all, with florals.

Bedding

Céleste & co

Having beautiful L'effet papillon bed linen is great. But having high-quality bedding AND beautiful L'effet papillon bed linen is even better !

Because real rest only happens with real quality bedding, right ? And by bedding, we don't just mean mattresses - that would be too easy. **It's imperative to take the time to choose your duvets and pillows wisely.** Their origin, your sleep habits and the seasonal temperature changes... all these factors matter when making the right choice..

So let's give a warm welcome Céleste and Sirius, the latest additions to the ever-growing LEP family. Made in France, no less ! Yes, really !

Allergy sufferers, rejoice ! You can now sleep peacefully with the Céleste tempered duvet and the Sirius soft pillow, **made from 100% cotton and woven in 57 yarns/cm²**, have been **treated against dust mites for a peaceful night's sleep.**

So, down with allergic rhinitis !

No more balled-up tissues under the pillow ! No more sneezing all night long ! (because it's really annoying for those trying to sleep next door...).

The Céleste duvet's soft, fluffy feel is thanks to **its high-end, hollow siliconized fibers, 100% recycled and GRS-certified** (Global Recycled Standard). As for the Sirius pillows and flat bolster, they always bounce back to their original shape thanks to **ultra-fine, downy siliconized fibers** that allow air to circulate freely.

As for care, a simple **30°C wash at home is fine**, if your washing machine is big enough. Otherwise the dry cleaner's got your back. Here's a little trick : toss a few tennis balls in the drum when washing or drying. It helps maintain even filling and keeps things fluffy. Plus, it speeds up drying time !

And that's not all ! To minimize environmental impact, we've gone with **sustainable and reusable packaging** : your duvet, bolster and pillows each come **in a large 100% recycled - and 100% recyclable** - storage bag with sturdy handles and a zip closure. Super practical and eco-friendly. You're welcome !

PRINTED VELVET

Augustine & co

NEW Home linen
PRINTED VELVET
Augustine & co

There are cushions you forget. The kind that just sit there, vaguely decorative. And then there are **Augustine, Valentine, Coline and Isaline**.

Names full of softness, like a little sisterhood, a gang of friends who decided to crash your living room (or any other room) with their silky velvets, retro patterns, and that effortlessly chill vibe... when in fact, they're doing everything.

Because these collections aren't just "a cushion" or just a "bed runner". They're all about **generous drapes and ultra-soft textures**, the kind that makes you want to sink in... and maybe even fall asleep without meaning to.

The secret ? A front side made of 100% polyester velvet with a silky touch, and a back side in chambray cotton, natural and slightly textured. A beautiful, practical material combo designed to last.

Each design comes in **a 50 x 50 cm cushion, a 40 x 60 cm cushion, and a 90 x 220 cm bed runner**. Perfect for playing the Mix & Match game, layering, mismatching, or building your perfect cozy nook...

Despite appearances, this velvet doesn't require any special care. It doesn't wrinkle, it stands up to envious glances and long work-from-home days. A quick brush now and then, and it's as good as new.

Augustine, the classic-chic
Valentine, the sweet romantic
Coline, the retro floral
Isaline, the refined modern

...Each one brings her own mood and personal style.
It's up to you to choose the one that tells the story of your space.

Fair warning : most people fall for just one... **And end up taking all four !**

COTTON VELVET

Velvet, out of style ?!
Timeless, indeed !

The "swan's down" of its first name has survived the seas and the centuries while remaining quite relevant ! **A rare and luxurious fabric** in the Middle Ages and the Renaissance, it was only democratized in the 19th century. And that's not to our displeasure !

Because, even if we're not part of the aristocracy or the haute couture runways, we can still welcome velvet into our homes, and **enjoy all the softness and strength it brings**. Radiant and warm, it adds a touch that is both timeless and chic. Whether used as an accent or embraced in full look, **we love the calm, cocooning ambiance** it creates... while still **feeling wonderfully glamorous and refined**.

CÉSAR is a home linen collection made from plush and durable pure cotton velvet (290 gsm), with an elegant way of catching the light. Easier to care for than silk and more natural than polyester, cotton velvet can be hand-washed at 30°C and ironed on the reverse at medium temperature. As for drying, fresh air is best (for the fabric and the planet).

So, are you ready to invite velvet into your home ?

TEXTURED COTTON
Edgar & Anton

Some duos just always work :

Chocolate and brioche. A cozy playlist and a rainy Sunday. **Edgar & Anton** are no different. Two distinct styles, but one shared DNA : comfort and a touch of rustic elegance.

The fabric ? A thick cotton that offers a dense, reassuring hand feel, the kind of textile that makes its mark without overwhelming the room. Whether you go for one or both, they'll add depth to your bedroom with their **textured cotton** front (530 gsm) and all the softness you could want thanks to the smooth **washed percale** back (80 threads/ cm²). No ironing needed (pinky swear) ! In fact, it gets even better with time. Wash at 30°C and air dry for a natural look that's effortlessly charming.

Cushions and a bed runner to layer onto a bed, a sofa, a bench, or simply to add personality to a space that's playing it too safe.

So, which of our two companions will make themselves at home with you ?

JACQUARD COTTON

There are basic bedcovers... and then there's Zélie. **With its quilted lines and generous texture,** Zélie doesn't just sit pretty, it finishes the room. It's that final touch that pulls everything together.

Crafted entirely from **jacquard cotton** (145 gsm), Zélie checks all the boxes : dense yet supple, holds its shape beautifully, and has that subtle textured relief we love. But don't mistake it for just another throw tossed at the foot of the bed, this is **a true style statement**.

And like any good piece, it gets better with time, as long as you show it some love : a gentle 30°C wash, air dry, and that's it. Piqué cotton likes to breathe.

To top it all off, Zélie comes in 4 beautiful colors : camel, sable, romarin and terracotta, our winning quartet. Bonus tip ? The camel and romarin colors pair perfectly with our Gaïa collection. What more could you ask for ?

Each color is available in a generous 240 x 260 cm size, ideal for larger beds and guaranteed to bring joy. Zélie is the ultimate comfort detail, the difference between a nicely made bed and a "wow"-worthy one.

And in a bedroom, that's no small thing.

SLUB COTTON

Sixtine

SIXTINE is a home linen made from slub cotton of our linen (210 gsm) also. Its textured look gives it that charming rustic and artisanal feel - almost handmade - that we love so much. This unique effect is achieved through a spinning process where the yarn tension is deliberately varied, creating sections that are thicker and thinner.

These **uneven cotton fibers** are then woven more or less tightly to perfect this "raw" aspect, combining charm and authenticity. The **subtle irregular lines** formed on the fabric surface resemble little flames, hence the name !

Each piece thus becomes unique....just like you !

And that's not all !
Along with its soft and elegant drape, slub cotton offers **enhanced durability and excellent structure**, perfect for those seeking originality without compromising on long-lasting quality. Plus, it's just as **easy to care** for as classic cotton !

NATURAL WOOL
Marius & co

Cosy throw

100% NEW ZEALAND WOOL
Marinus & co

Your throw, **made from 100% New Zealand wool**, is wonderfully warm and cozy ! It's a perfect companion for the long winter months **thanks to its insulating and temperature-regulating properties**. Its natural fibers, sheared from sheep, are **100% biodegradable and recyclable**, as well as **hypoallergenic and extremely durable**.

WARNING ! WARNING !

Don't bundle up your throw while waiting to wash it, opt instead for a quick fold that won't crease its fibers. Just as it's common knowledge that hand washing or a short machine cycle (at a maximum of 30°C) is recommended, let's not forget that the tumble dryer is wool's worst enemy... so avoid it at all costs, unless you want your throw to shrink. Flat drying - ideally laid out on a cotton to absorb moisture - will help preserve the shape of your throw, whose fibers are naturally flexible.

WOOL & CASHMERE *Camille & co*

Warmth, softness, elegance... and natural beauty.

Made from **90% Merino wool and 10% cashmere**, our Camille and Côme throws will wrap up in a cocoon of refined comfort. A precious blend of two noble fibers, they are warm and luxuriously soft, perfect for a gentle winter. **Merino wool**, known for its fineness and durability, offers enveloping and lasting warmth. **Cashmere**, sourced from the undercoat of goats raised on the high plateaus of Mongolia, adds an incomparable touch of lightness, suppleness, and silky softness. Rare and highly sought-after, this undercoat is hand-combed during the spring molt, making it a fiber as luxurious as it is demanding.

Together, these natural fibers are **thermoregulating, insulating, hypoallergenic, biodegradable, and recyclable**. They allow the skin to breathe while maintaining constant warmth without overheating. Draped over a sofa or bed, these throws will transform every moment of rest into pure comfort. **Exceptional pieces**, designed to last, perfect to treat yourself or to offer, and to savour the winter... with softness.

WOOL-LIKE FEEL • RECYCLED FIBER

Gabin & co

Have you seen these throws named Gabin, Gabriel and Gaspard ?
There're full of beauty and will become your MUST-HAVES !

6 solid colors, 2 vintage patterns that feel both timeless and current, just like their names!
They are declined in 3 sizes to suit every need and all your wildest decorating dreams :
armchair throw, sofa cover, or even bedcover !

These throws, made from 100% recycled PET - yes, recycled plastic bottles - are incredibly warm and cozy. They look and feel just like wool, but with the added bonus of being ultra-tough. Naturally UV-resistant, fireproof, rot-proof, and wear-resistant, they're built to last, indoors or out ! These techy terms simply mean that they can withstand sun, rain, and daily use like pros. On top of that, they're wrinkle-free and quick-drying, which is rare enough to deserve a mention. We can already picture them gracing your garden furniture or deck chairs...

All this is possible because they're made from recycled bottles !
In other words, not only do they have exceptional properties, they also help to reduce waste !

Wondering where rPET comes from ?

Used plastic bottles are collected, shredded into flakes, melted down, and re-spun into new textile fibers.

This gives a second life to waste and helps reduce our environmental footprint by contributing to a circular economy. rPET is energy-efficient to produce and can be recycled almost infinitely.

Léo, Bono, Hugo, Orlando, Pablo...
Do these names mean anything to you ?

Actor, musician, journalist, writer...
We were inspired by public figures - and charismatic ones ♥ ! -
committed to **the environment for our collection of ecofriendly
rPET outdoor rugs.**

But what exactly is rPET ?

The term PET stands for Polyethylene Terephthalate, a type of polyester. The little "r" - which makes all the difference - means that this plastic **is recycled...** and not just any way ! These rugs are made from **used plastic bottles** that have been given a second life.

In addition to **reduce waste and pollution**, this **composition makes the rugs naturally resistant to sunlight and weather conditions**, without requiring any additional treatment.

And that's not all ! Their texture **is similar to wool** but much **easier to maintain** and much more resistant, making them ideal not only **for outdoor use** in all weathers, but also **for indoor use.**

In short, they're stylish and ultra-resistant, environmentally friendly, available in **5 different designs** and **in a range of formats and shades** to match perfectly into any living rooms, bathrooms and terraces...

WATER - REPELLENT

RESISTANCE

Who does not want to add a touch of style to their garden ?

Let's be honest, as soon as the sun comes out, we're living outdoors for a few precious months, and more and more of us want our terrace to feel like a natural extension of our living room.

Who could argue with that ?

And what better way to bring personality into your outdoor space than with color and pattern ? However, indoor cushions can't handle the weather, and outdoor cushions are often... a little dull. But that was BEFORE !

BEFORE we designed these gorgeous cushion covers !

With **10 patterns and 3 sizes**, they're made to last outdoors, beautifully and worry-free.

Your cushion cover, made from **PU-coated 100% polyester** (200 gsm), is specially designed to resist weather and fading. Its **polyurethane coating creates a water-repellent barrier against the rain**. Its lightfastness rating (4/8) and **good abrasion resistance** protect it from fading and premature wear. So yes, this printed cover will stay vibrant and stylish all season long.

Just like our Naïa line, care is simple : machine wash at 30°C, protect the coating, and let it air dry outdoors. Easy to maintain, and stunning to look at.

But how to fill these stunning covers, you may ask ?
With our **Malo cushion inserts**, of course ! Find them on pages 456-457.
