Thank you.

You're one of those little caterpillars weaving your cocoon, where economy and ecology, pleasure and future all rythme together !

Just like us, you know that it's through a series of small actions, however small they may be, that the metamorphosis takes place. Step by step, a new way of producing and consuming emerges... the beginning of a society that's different from yesterday's.

With that in mind, each of us keeps moving forward and we keep flapping our wings...

L'effet papillon's mission is to offer high-quality, contemporary linens that are affordable for everyone, thanks to its fair trade partnership with Oeko-tex certified factories around the world, which focus on people and ecology.

To minimize our impact on the environment, by limiting plastic use and choosing **durable and reusable packaging**, most items come in simple kraft packaging, 100% recycled and recyclable. Bigger products, like cushions and seats, are compressed in a recyclable vacuum bag to make shipping easier. Duvet covers and bedding sets, on the other hand, are gently packed in a big cotton pouch. **It's a gift!** It can become a bulk bag for your local shopping, a laundry bag when you travel, a catch-all bag... We're calling on your imagination and we're sure you'll make good use of it!

Designed in **Roanne**, France.

European Flax ® Premium linen fiber

The linen fiber used for our Soline and Evy products comes from premium flax, grown locally in Europe (France, Belgium, Netherlands).
A 100% natural, traceable fiber that's planet-friendly: no GMOs, no irrigation, and zero waste.

Made in France

Our Céleste and Sirius ranges are made in France.
Tristan, our new range with alpaca, is fully knitted and made in Riorges, right near our offices.

Global Recycled Standard

Our Léandre and Lancelot models are GRS certified. This international standard guarantees they're made from recycled materials, following strict environmental and social criteria all along the production chain.

Manufacturing closer to home

For our outdoor cushions: Naïa, Noa, and Doris, we go for local know-how and short supply chains. They're proudly woven in France, giving you top quality and durability for your outdoor spaces.

Choose responsible textiles

Our products are OEKO-TEX® certified, making sure there are no harmful substances and that strict quality and safety standards are followed. Only our RPET and printed velvet products aren't certified yet.

Responsible trade

Our products are made following BSCI standards, which means fair and responsible working conditions all along our production chain.

Preserved water

Our main partner has a system for treating and recycling wastewater.
A real step to protect this precious resource and show our daily commitment to the environment.

Process control

Most of our suppliers are ISO 9001 certified, which means strict control, full traceability, and regular checks during manufacturing.

Organic and sustainable

Ina

BY GAÏA

Do you hear that soft rustling?
It's Ina making her entrance.

A collection in **quadruple cotton gauze (220 gr/m²)** - yep, quadruple! - for a texture that's just as soft as it is cozy. Four layers, all super fine, that keep the warmth close to you. Soft, breathable, and naturally textured, it doesn't need to try hard to win you over.

It's our beloved Gaïa, but in a more luxurious version!

Ina is kind of like all those things you love, but can't really explain why. A bit of texture, lots of natural vibes, and that comforting feeling of simple, real coziness.

Available in **4 natural shades**: pampa, chantilly, romarin, and ficelle, Ina fits all your harmony cravings—or mix & match if you're feeling bold.

Pillowcases, duvet covers, and bed runners—Ina finds its way into every bedroom in the house.

Discover the real cocoon. The one you never want to leave, day or night.

NEW

Are you the **super chilly type**, cold feet and all that... ?

This winter, or during those cool mid-seasons, just let yourself fall into dreamland and enjoy nights wrapped up in warmth and softness, in super cozy sheets!

CANDICE is a comfy bedding set made of cotton flannel (170 g/m²), a fabric that manages to be thin and light, but still super tough and warm. Flannel is easy-going, just wash it separately and inside out, and it's pretty much wrinkle-free, so you can skip the ironing hassle.

But hey, if you just can't live without it—everyone's allowed to love ironing, after all ☺ - just use your iron on a low setting... When it comes to drying, air dry it to keep that fresh, like-new feel and quality.

There you go, now you've got everything you need to enjoy all winter long the **amazing benefits of this bedding with its incredible qualities!**

Now, all that's left is to pick your favorite and play around with its **9 timeless colors... but still totally on trend**, perfect for that new craving for a back-to-basics vibe, with a home that feels closer to nature—pure, warm, and real.

 New, softer quality ☺

Goline

french

Did you know that linen was probably **one of the very first textile plants** used to make fabric? Tiny traces of its fibers, thought to have been woven and dyed, have been found from the Paleolithic era!

And 38,000 years later, we're still working with linen!

As clothing or home textile, **it's just so in!** (meaning "totally trendy")... *in-comparable, in-avoidable, in-credible, in-shape, in-style, in-dispensable, in-tiring, in-imitable [...]* and even in-timeless! Just that!

If all those adjectives didn't win you over, just know we use **a premium quality linen thread!**

Its fibers, **grown in France and certified European Flax**, come from a zero-waste, eco-friendly production: the whole plant is used and valued.

Plus, they don't need irrigation or GMOs, which is a big deal these days...

You'll agree with us, right?

Soline

SOLINE is pure linen home linen (160 g/m²) : this noble, natural fabric is super absorbent and dries in a flash! Two perks you want every day, especially in the kitchen, and even better for bedding since it gives **thermoregulating, antibacterial, and hypoallergenic properties**: your sheets promise you soft, peaceful nights, keeping you cool in summer and warm in winter.

When it comes to care, our SOLINE collection is also super chill because **ironing is totally unnecessary**: its charm is all about that raw look (think "naturally crinkled") and soft feel, which **just gets better with time and washes**. If you're in a hurry, you can tumble dry it, which actually softens the fibers, but fresh air is great for it too (and for the planet ☺).

So, ready to try the oldest experience ever?

Salomé

Do you remember those fresh, silky sheets?

Yeah, exactly: the ones you found during your last hotel stay, when you slipped into that perfectly made, unbelievably soft bed and thought: **"Why don't I have this at home?"**

After all, who doesn't dream of having that perfect bedding every day, that cozy welcome, that feeling of total comfort that instantly makes you want to relax and let go?

No one, obviously. We all want to recreate that feeling of well-being at home.

That's exactly where **bamboo satin** comes in. Naturally silky, it gives you the same high-end bedding vibes right at home.

In short: if you dream of sleep worthy of the fanciest hotel suites...

bamboo satin is made for you.

Salomé

NEW

Thanks to its tight weave of 120 threads/cm², which gives it that delicate satin finish, **SALOMÉ is bamboo viscose bedding**, light and soft as silk but way easier to care for.

Smooth (but not slippery!), breathable and not very absorbent, **it takes care of your hair and skin all night long**, protecting them from friction and dryness.

No more frizzy hair or tight, dry skin!
So you sleep cool and totally at ease!

It might look fancy and delicate, but bamboo viscose is still **tough and super easy to live with**. You can wash it at 40°C and iron it on low at home, while silk would need to go to the dry cleaner. It can even handle the dryer, though fresh air is—and always will be! – the best option for our laundry and the planet.

We're obviously talking about the dream partner for five-star nights!

You're about to get yourself into some nice sheets again...

Lysandre

NEW

Lyocell, does that ring a bell? TENCEL™, maybe that sounds more familiar? Still nothing?

Well then! How do I introduce you to this super tempting collection?

To start with, the textile fiber called lyocell comes from **eucalyptus wood pulp**. And you probably know that eucalyptus is a fast-growing tree that's happy with just rainwater. Perfect for us, since we're all about making **sustainable home linens!**

No artificial irrigation, no cutting down ancient trees, made with a non-toxic and recyclable solvent, no bleaching needed, biodegradable fabric... — these are the key things for a **controlled environmental footprint**.

That's what lyocell promises, or as we usually call it, Tencel™.

The term Tencel™ actually refers to the brand name — which even got an **Award European Environmental Award in 2000** — while Lyocell is more specifically about the **eco-friendly material that is eucalyptus satin**.

Lysandre is a fluid, silky, and super soft lyocell bedding — or eucalyptus satin — woven at 137 g/m². It's a breathable, temperature-regulating fiber that helps your body stay cool in summer and warm in winter while you sleep.

So you can enjoy peaceful nights wrapped in softness.

Easy to care for, your bedding just needs a wash at 30°C and a quick iron on low heat... if it even gets wrinkled at all.

For drying, a breath of fresh air on a clothes rack is the best for your bedding and the planet.

MULBERRY SILK
solid

Joanne

Given our brand name,
we just had to offer you mulberry silk!

Why? Because it comes from the cocoon spun by the silkworm...
which is actually just a butterfly caterpillar!

More specifically, the Bombyx mori, which only eats mulberry leaves.

Mulberry silk is an exceptional natural fiber born from ancient Chinese craftsmanship — a delicate, meticulous tradition that's now a symbol of luxury and elegance.

Frizz, knots, brittle hair, redness, tightness, dry skin, runny nose, scratchy throat, and random sneezing...

The nightmare's over.

Time for sweet, peaceful nights!

MULBERRY
SILKE

goanne

Your pillowcase, made from 100% mulberry silk and woven at 19 momme, is especially recommended for sensitive skin, fragile hair, and "allergic noses" — it brings comfort and deep, restorative sleep.

Its super fine and smooth fibers not only give a silky, elegant drape, but they're also non-absorbent. They're even **antibacterial and hypoallergenic** (unlike, say, classic cotton). The sebum your skin and hair naturally produce can keep doing its job of protecting and hydrating, and your pillowcase won't get clogged up with residue or dust.

And that's not even all the benefits! Mulberry silk also promises soothing coolness in summer and cozy warmth in winter, thanks to its **temperature-regulating powers**.

Just take care of it by hand-washing at 30°C and ironing on low heat.
For drying, fresh air is best.

Weave your nights in a silk cocoon, just like the little caterpillars we are... So, who can top that?

Your frozen feet are begging for comfort, but you refuse to sacrifice the look of your bedroom?
After all, who said you can't combine style and a big chill?

This winter, let yourself be charmed by **Lucien**:
bed linen in **cotton flannel** with a "neo-retro" look that's downright irresistible.
Its **delicate yarn-dyed stripes** offer an authentic look and a warm, vintage charm.
Its shades of beige, sable, and caramel blend together to create an atmosphere worthy of a mountain chalet...
And because we know you'd much rather relax than get out the ironing board, good news: flannel is almost wrinkle-free.
A gentle wash inside out at 30°C, air drying to preserve its incredible softness (and the planet, always), and that's it!

Let's just say getting out of bed is going to be reaaaaally tough! *Good luck.*

We have the perfect plan. When the days get cooler, call **Gaston**!
Our bed linen in **yarn-dyed cotton flannel** reinvents the great classic of the checkered pattern for our greatest delight. *Who said the "lumberjack shirt" look was outdated?*

Gaston succeeds in combining authenticity, modernity, and elegance. Forget the traditional red tartan: here, we focus on romarin, ficelle, sable, and nuit shades for a trendy, graphic, and incredibly comforting bed.
And like any good flannel, it's easy to care for—just like its brother Lucien.

Careful, you've been warned: the hardest part with **GASTON** won't be falling asleep... it will be getting out of it.
Ready to switch to hibernation mode?

As good winter linen should be, **Basile** is easy to live with: we recommend washing at 30°C, air drying (even though tumble drying is perfectly possible!).

What if your bedroom became your greatest fantasy?
Colors, patterns, a joyful, deliberate mess... we love it.

This Capsule deco collection offers no less than 15 printed patterns, all bursting with color.

There's something for every taste and every color!
You can have fun making bold and unexpected **mix & match** combinations.

We're truly in a *mood* where we dare to mismatch, to layer,
to mix styles and ultimately create an inspiring world of your own...

At last, and rightfully so, we make our decor our own.
The more eclectic and extravagant, the better!

Above all, don't hesitate to pair them with our solid Gaïa range – because yes, **everything is of course matched to the 19 Gaïa colors** – and also with the very charming embroidered and yarn-dyed pillowcases from the **Gaïa pillowcase shop**: Boho, Chic, Match, Mix, and Stella.

BUT - because there's always a "but" - it's also perfectly possible to keep things calmer, more *slow life*.
And that's just as good!

That's actually the very essence of this Capsule deco collection:
the reason why we developed this range.

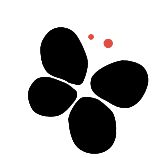

With it, you can really create a multitude of combinations.

Think "one home, two vibes" as we like to say ☺

Want some color and whimsy? Us too!

Let yourself be surprised by patterns that tell a story, that's exactly what inspires us.

The Timeless is a **collection of 10 designs** created to brighten up any bedroom.

Printed on 57-thread cotton, they dare everything:
flowers (*of couuuurse!*), geometric vibe, Berber spirit, toile de Jouy inspiration...

Varied worlds for every desire.

Timeless, yes — outdated, never!

Whether they evoke an English cottage or a revisited Berber folklore, each pattern was designed to stay current, even clearly on trend.

And how to combine them?

Nothing could be easier: they naturally pair with our solids to create harmonious sets, soft or bolder.

Any mood is possible.

Each set becomes a little adventure, a detail that transforms the bedroom and brightens everyday life. Everyone is free to create the atmosphere that suits them.

One bedroom, a thousand combinations... and always the pleasure of rediscovering your bed.

It's up to you to write the next chapter.

Gina

Love at first sight and softness alert!

We imagined the perfect bedding set.
The one that makes you want to snooze your alarm for 10 minutes (or an hour, no judgment).

Its secret? An ultra-addictive double play of textures:
On one side, a **quilted cotton gauze** (276 g/m²) that brings incredible texture and absolutely irresistible loft.
On the other, a **washed cotton** with absolute suppleness, ultra-breathable and soft for the skin.

Style-wise, we skipped the superfluous to focus on **three vibrant shades** inspired by nature:

Ficelle: the chic, bright, and ultra-easy neutral.

Pampa: a sunny and soft shade, like a summer evening.

Romarin: a very soothing plant green, ideal for disconnecting.

The little bonus? Its naturally textured look is so beautiful that it doesn't need ironing at all.
Just wash it, tuck it in, and enjoy.

Want to bet you'll give in?

COTTON CORDUROY

Clovis

NEW

Before, corduroy velvet was for jackets and sofas. Until today.

Clovis had a simple and brilliant idea:
to bring corduroy velvet where no one expected it: into the bed.
A bold gamble to shake up the codes of home linens and create a truly unique atmosphere.

On one side, we totally fall for the ultra-generous **corduroy cotton velvet** with its 310 gr/m².
It's textured, it's incredibly soft, and it gives your bed amazing character in a flash.

On the other side, it's the caress of **washed cotton** that takes over directly against your skin.
Fresh, supple, and breathable, it wraps you in softness without ever making you too hot under the duvet.

The hardest part will be finding the motivation to get up in the morning!
Prepare yourself mentally to keep postponing your alarm again and again...

Téo & Co

At L'effet papillon,
we love when things spark under the covers: color, pattern, a little textile twist that sets the tone for a bedroom.
But sometimes, all you need is a beautiful fabric and lovely stripes.

Téo, Tim & Tom, these are our triplets.
Three styles, one spirit: the discreet charm of **100% cotton** linens that do everything without overdoing it.

Subtle, elegant, timeless stripes, that fit any interior.
They're easy on the eyes when everything else is already full (colorful living room, overexcited kids, plants in SOS mode... we know).

Téo, Tim & Tom will bring **texture and character** to your bedroom with their front side in **textured cotton** and all the softness we love (and deserve!) thanks to their back in **washed plain percale (80 threads / cm²)** which, by the way, keeps you from waking up in the morning with marks on your face.

As for sizes, you're covered: duvet covers, pillowcases, bed runners.
It's simple, you can dress your entire bedroom in an **elegant and subtle striped style**.

If you're hesitating between the three, don't count on us to help you... the choice is just too hard!
Just between us: **you're going to love all three!!**

*Once you've experienced these stripes and this softness that makes you want to linger in bed...
you might be slightly late in the morning.*

Téo, it's unapologetic freshness.

Two-tone stripes in green and ecru, subtle but full of personality, bringing a natural touch to the bedroom.

Bed linen that exudes calm, light, and that simple elegance we love to find at the end of the day. Its side in textured cotton 270 g/m² brings comfort and softness to the touch.

Téo has nothing to prove: it combines character and harmony to create, all by itself, a soothing atmosphere. It fits in everywhere: bright bedrooms, minimalist spaces, warmer decors...

Téo goes with everything, adding its natural touch without ever stealing the spotlight.

Tim, it's the reinvented classic.

Fine embossed stripes, neutral but refined tones.
Bedding with a fresh, structured look, perfectly put together...

With **Tim**, there's no need to iron your bedding for it to look good.
Its cut and subtle stripes do all the work.
Its side in textured cotton 345 g/m² brings comfort and softness to the touch.
It fits in every bedroom, with every style.

**In short, Tim is the ideal companion for bedrooms where you love elegance,
and materials that speak for themselves.**

Tom, he's the one with a bit more character.

Wider stripes, more pronounced, a bolder contrast, perfect for those who like their good taste to be noticed without having to say a word (hello to the introvert but stylish team!).

But be careful, Tom isn't just for looks: **the thickness of the cotton** gives it character and a beautiful drape.

Plus, this beautiful cotton keeps you warm without smothering.
It immediately brings a **cocooning sensation** with its side in textured cotton 345 g/m², as if the bed became a refuge all on its own.

With Tom, the bedroom gains presence, warmth, and personality, without ever losing its softness.

Having beautiful bed linen L'effet papillon, that's good.
Having quality bedding AND beautiful bed linen L'effet papillon, that's even better!

Because quality rest can only be had with quality bedding, right? **It is essential to take the time to choose your duvets and pillows carefully.** Their origin, our sleeping habits, the changing temperatures according to the seasons, are all points not to be overlooked when acquiring them.

So we welcome Celeste and Sirius to the - now large - LEP family! And made in France, no less! Yes, yes!

The unlucky allergy sufferers will now be able to sleep soundly because the Celeste tempered duvet and the Sirius soft pillow, of **100% cotton quality, woven with 57 threads/cm²**, have benefited from an **anti-dust mite treatment for peaceful nights. So, down with allergic rhinitis!** No more tissues balled up under the pillow! No more untimely sneezing all night long! (because it's really very annoying for those trying to sleep next to you...)

The soft and fluffy filling of the Celeste duvet is possible thanks to **premium hollow siliconized fibers** made from recycled polyester, which are **100% recycled** and certified *GRS (Global Recycled Standard)*. Whereas the Sirius pillows and flat bolster always regain their original shape thanks to their **siliconized fibers** in polyester, **very fine and fluffy**, which allow air to circulate.

As for care, **a home wash at 30°C will be sufficient** if you have a washing machine large enough. Otherwise, you'll have to go to the *dry cleaner*. The little *tip for washing your bedding at home* is to add a few tennis balls to the drum to help maintain the distribution and fluffiness of the filling. You can do the same in the dryer if you use one; it also helps to dry faster thanks to the movement created.

And that's not all! To minimize our impact on the environment, by favoring **durable and reusable packaging**, your duvet, bolster, and pillows are individually packed in **a large 100% recycled cover - and 100% recyclable!** - which can also be used as an ultra-practical storage bag thanks to its carrying handles and zip opening. It's a gift!

Evy BY SOLINE

*"Let the sunshine...
Let the sunshine in.
The sunshine in..."*

We know washed linen for its effortless charm (hello Soline).

But when it becomes a sheer, like with Evy, it reveals another side of its personality: that of a fabric that doesn't try to take up space, but to enhance it.

Revealing a room, softening an atmosphere without ever depriving it of light: that's what Evy does better than anyone.

It lets the light through – morning light as well as late afternoon – always gently. And in this play of soft shadows, it brings that little extra soul that changes everything.

Available in sable and craie, the two most iconic linen shades, **Evy adapts to all interiors**. Easy, timeless, authentic colors – the ones we love to find at home, again and again.

Its delicate and airy texture offers a style that is both simple and very chic.

And because it is made of washed linen, it retains all the advantages of this exceptional material: **breathable, naturally hypoallergenic, durable, and environmentally friendly**.

A sensible and responsible choice.

(A choice that's good for the home – and for those who live in it.)

Evy by Soline, is the art of letting the light in... with elegance and naturalness.

And it stands the test of time, just as linen always has.

Velvet, outdated?! Timeless, yes!

The "swan down" as it was first called, has crossed seas and centuries while remaining perfectly relevant! **A rare and luxurious fabric** in the Middle Ages and the Renaissance, it only became widespread in the 19thth century. And we're not complaining!

Because, even if we're not part of the aristocracy or haute couture runways, we still enjoy being able to bring it into our homes and thus **enjoy its softness and strength**. Bright and warm, it brings a timeless and chic touch all at once. Whether in small touches or a total look, we love **the calm and cozy atmosphere** it creates... and yet **glamorous and as refined as you wish!**

CÉSAR is a home linen in pure cotton velvet (290 g/m²) soft and durable, capturing the light so elegantly! Easier to care for than silk and more natural than polyester, cotton velvet can be hand-washed at 30°C and ironed inside out at medium temperature.

As for drying, fresh air is best (and better for the planet too ☺).

So, will you be gentle enough to invite it into your home?

SLUB COTTON

Sixtine

SIXTINE is a home linen in slub cotton (210 g/m²).
Its textured appearance gives it that rustic and artisanal touch – almost handmade – that we appreciate so much. This feature is achieved through a spinning process where the thread tension is deliberately varied, thus creating thicker and thinner sections.

These **uneven cotton fibers** are then woven more or less tightly to perfect this aesthetic « raw », blending charm and authenticity.
The **small irregular lines**, thus created on the fabric's surface, evoke little flames, hence its name!

These subtle variations in thread thickness give depth and dimension to SIXTINE home linen.

Each piece thus becomes unique... like you!

And that's not all!
In addition to its supple and elegant drape, slub cotton offers **increased strength and excellent hold** for those seeking both durability and originality, while being just as **easy to care for** as classic cotton!

Some fabrics instantly create a feeling of calm. **Romie** is one of them. Its fine stripes create a pattern that sets the scene without being overpowering. They bring just the right amount of structure, while preserving that softness that lets a room breathe.

Woven in **cotton gauze**, Romie offers a light, almost airy feel. A supple material, pleasant for everyday use, that captures the light delicately. And thanks to its trendy stripes, it instantly finds its place in a modern decor.

The **adjustable curtain** gently filters the light and brings real serenity to the room.
The **removable cushion covers** allow you to add its stripes in small touches.
With their very British ruffles, they bring simple elegance and irresistible modernity wherever they are placed.

Vickie

NEW

For all those who love pieces with character, there's **Vickie**. With its small gingham checks that catch the eye, Vickie brings every interior that bold touch that changes everything.

For those who want to start gently, the **removable cushion covers** offer a delicate way to try out the pattern. The more daring will have fun mixing everything.

And we haven't even mentioned the **seven colors**: from the original shade to the most natural hues, including rustic yet decidedly modern tones... Vickie fits in everywhere, with surprising ease.

VELVET

Augustine & Co

There are cushions you forget about. The ones that vaguely decorate. And then there are **Augustine, Valentine, Coline, and Isaline.**

Names full of softness, almost like a sibling group, like a bunch of friends who decided to invite themselves into your living room or elsewhere, with their super soft velvet, retro patterns, and that little air of doing nothing... while actually doing everything.

Because these collections aren't just "a cushion" or "a bed runner". It's a **generous drape and an ultra-soft feel**—the kind that makes you want to settle in, or even fall asleep there without warning.

The secret? A front in 100% polyester velvet with a silky feel and a back in chambray cotton, natural and slightly textured. A duo of materials as beautiful as they are practical, designed to last.
Each model comes in **50x50 cm cushion**, **40x60 cm cushion**, and **90x220 cm bed runner**.
Everything you need to fully embrace Mix & Match, stack, mismatch, and create a cozy corner...

Contrary to appearances, this velvet doesn't require delicate care.
A little brushing from time to time, and it keeps its look.

Augustine, the classic-chic, **Valentine**, the gentle romantic, **Coline**, the retro floral, **Isaline**, the refined modern...
...each has her own atmosphere and personal style. It's up to you to choose the one that will tell the story of your room.

You've been warned: usually, you fall for one... **And you end up with all four!!**

For the **Gina** decor range, we've put "quilted" absolutely everywhere, front and back. In short, the kind of cushion that gives you a valid excuse to not move from the sofa for 4 hours.

They come in **three sizes** to create your custom cozy nest:

- 50x50 cm:** the perfect square, the must-have to scatter everywhere! (and on which your cat will be quick to take a nap, by the way).
- 40x60 cm:** the ideal rectangle to support your neck while scrolling on your phone... or for a pillow fight.
- 55x110 cm:** the XXL size for a grand hotel effect, instantly hiding all the clutter lying around.

Ficelle, Pampa or Romarin? Pick your side (or mix all three, we love organized chaos). And with their naturally textured look, you can definitely leave the iron in the cupboard. Just place them, give them a good shake for fluffiness, and go back to hibernating.

The bedspread is often underestimated. Wrongly so.
It protects, it dresses, it completes the bed. And when it's beautiful, it transforms an ordinary bedroom into a room to be proud of.

Zola, is simplicity incarnate: stripes created by the quilting, soft and clean, that bring just the right amount of texture and charm.

The **quilted cotton** (120g/m²) drapes nicely and isn't demanding: a wash at 30°C, air dry...
It doesn't ask for more.

Four colors designed to go with everything (and luckily, with our collections too):
sable, ficelle, camel et romarin.

From the softest to the boldest, there's bound to be one that's perfect for your bedroom.

I accuse... this bedspread of being far too beautiful to resist.

Zélie

No more basic bedspreads with **Zélie**.
With **its quilted lines and generous material**, Zélie is not here to just blend in. It's here to perfect the bedroom, the little finishing touch!

Entirely made from **jacquard cotton** (145g/m²), Zélie ticks all the boxes: dense but supple, holds well on the bed, and has that subtle texture. But don't mistake it for a throw you leave at the end of the bed: it's a real **decorative choice**.

And like any good piece, it gets better with time—provided you give it a little love: a gentle wash at 30°C, let it air dry, and that's it! Piqué cotton likes to be allowed to breathe.

To top it all off, Zélie comes in **4 colors: camel, sable, romarin and terracotta**, our winning quartet. The cherry on top? The camel and romarin colors go perfectly with our Gaïa. What more could you ask for?

Each color is available in 240x260 cm size—a generous size, ideal for large beds, that will make you very happy.

Zélie is the ultimate touch of comfort. The one that takes a bed from "well made" to "wow".
And in a bedroom, that's anything but a detail to overlook.

A bedspread is the unsung hero of the bedroom: it protects the bedding during the day, adds a refined decorative touch, and provides extra warmth at night.

Everything you expect from **Jules**, in short.

Its **cotton velvet** (230g/m²) is soft, generous, with that double grid pattern that gives it texture and character.

You can't resist for long.

Argile, camel, olive, terracotta:
four warm, earthy shades that go with everything.

A wash at 30°C, air dry, and it's as good as new.

Florine & Co

Let's recap: the bedspread protects, warms, and completes the bed.
It's not a requirement, it's a bonus. The "cherry on the cake" of your bedroom.

But after velvet or jacquard, it was clear we had to turn to one of our favorite materials: **cotton gauze**.

Step into the dance, **Faustine** and **Florine**.
For both, no jealousy: a single generous size (240 x 260 cm) made to wrap large beds, and **two shades** as soft as a Sunday morning. A luminous Ivoire and a comforting Hazelnut...
We're in the palette of a good café au lait or a steaming hot chocolate. In short, pure comfort.

But then, how do you choose between these two style sisters? It's a matter of temperament.

On one side, there's **Faustine**: quilted **gauze** (305 g/m², polyester filling) with absolute lightness.
It's literally a "cloud" effect: airy, puffy, and as soft as you could wish.
It's the comfort blanket for grown-ups, the one that makes you want to turn off the alarm without guilt and extend the night.

On the other side, here's **Florine**: she also chooses quilted **gauze**, but changes the tempo. Denser (**420 g/m²**), its **quilting** is **pure cotton** and structured by topstitched lines. Its little touch of boldness? The contrast. On the Ivoire, the thread is noisette. On the noisette, the thread becomes ivoire. It's graphic, discreet, and wildly elegant.

So, when it comes to your winter nights, are you team ultimate softness or team standout detail?
Faced with such a level of comfort, we suggest unplugging the phone.

After all, on a lucky day, it might work, and you could even manage to sleep until noon.

Edgar & Anton

There are duos that always work:

Chocolate and brioche, a mood playlist and rainy Sundays. **Edgar & Anton**, it's a bit the same. Two different styles, but a common DNA: comfort and a touch of authentic elegance.

The material? A thick cotton that offers a dense, reassuring feel. The kind of textile that stands out in a room without ever overpowering it. Whether it's one or the other (or both), it will add texture to your bedroom with its **textured cotton** side (530 g/m²) and all the softness we love thanks to its **plain percale** back (80 threads/cm²).

No need to iron it (promise), it's even nicer when it's a little lived-in. For care, a wash at 30°C and air drying are enough to keep it looking naturally beautiful, hassle-free.

Cushions and a bed runner to complete a bed, a sofa, a bench, or simply to add a pop of energy to a too-calm interior.

So, which of our two companions will find its place in your home?

The one that will warm up the atmosphere as soon as you enter the room?
The one that will add texture without ever stealing the show?
Or maybe both, for a duo that never disappoints.

It's up to you to choose the one that will tell your story.

Wow, have you seen these throws with the lovely names Gabin, Gabriel, and Gaspard?
They are absolutely beautiful and will become your **MUST-HAVES!**

6 plain colors with trendy natural shades, **2 patterns** from the past yet so current – just like their names – that go together perfectly. They come in **3 sizes** to meet all your needs and especially your wildest desires: **armchair throw, sofa throw, and even bedspread!**

Your throws, made from **100% rPET (Recycled Polyethylene Terephthalate)**, are **wonderfully warm and soft!** You might think they're made of wool because they look just like it. But, they also have exceptional durability because they are **naturally UV-resistant, fire-retardant, rot-proof, and wear-resistant.**

These somewhat technical terms mean they withstand sun and bad weather:
extraordinary qualities that make them **throws suitable for both indoor and outdoor use!**

On top of that, they are **wrinkle-free and dry in a flash.**

And that's rare enough to be worth mentioning.

We can already imagine your mind wandering to your garden lounges and other deckchairs...

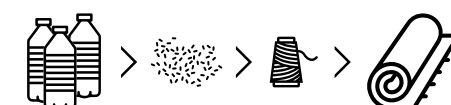

All this is possible because they are made from recycled bottles!
That means that in addition to having exceptional properties, they help reduce waste!

Where does rPET come from, you may ask?

They are used plastic bottles, collected, crushed, and turned into flakes, which are then melted and spun for new textile use.

This way, waste is given value and helps reduce our climate impact by entering a circular economy: **rPET is energy-efficient to produce and almost infinitely recyclable!**

WOOL CASHMERE

Camille & Co

Warmth, softness, elegance... and naturalness.

Made of **90% Merino wool and 10% cashmere**, our Camille and Côme throws will wrap you in a cocoon of refined comfort. A precious blend of two noble fibers, they are warm and delightfully soft, ideal for getting through winter with comfort.

Merino wool, renowned for its fineness and strength, provides enveloping and lasting warmth. **Cashmere**, sourced from the down of goats raised on the high plateaus of Mongolia, brings an incomparable touch of lightness, suppleness, and silky softness. Rare and sought-after, this down is collected by hand during the spring molt, making it a material as luxurious as it is demanding.

Together, these natural fibers are **thermoregulating, insulating, hypoallergenic, biodegradable** and **recyclable**. They let the skin breathe while maintaining constant warmth, without overheating. Placed on a sofa or a bed, these throws will turn every moment of rest into a moment of pure comfort.

Exceptional pieces, made to last - perfect for gifting or keeping - to enjoy winter at its softest.

NATURAL WOOL

Your throw, made of **100% New Zealand wool**, is warm and delightfully soft!

It is a perfect ally during the long winter months thanks to **its insulating and thermoregulating properties**.

Its natural fibers, obtained from sheep shearing, are **100% biodegradable and recyclable** as well as **hypoallergenic and extremely durable**.

WARNING! WARNING! WARNING!

Do not ball up your throw while waiting to wash it; instead, opt for a quick fold that will not crease its fibers.

Just as it is common knowledge that hand washing or machine washing on a short cycle (at 30°C maximum!) is recommended, let us remind you that the tumble dryer is wool's number one enemy... So avoid it at all costs or risk seeing your throw shrink. Flat drying, possibly on a cotton towel to absorb the water, will preserve the shape of your throw, whose fibers are naturally flexible.

WASHED LINEN

Soline

Everyday or for a special occasion, Soline tablecloths and napkins are our companions for better or for worse!

Let's start with the bad news: the worst... which isn't really that bad, after all, because linen is so **easy to live with and care for** that no stain will resist it. And that's thanks to the great strength of its fibers, which allows it to be washed very often at high temperatures.

You can entertain with peace of mind!

And for the good times: the best part... its look, of course! **Its unmatched elegance and chic.** With just a little, a tablecloth and a few napkins, Soline sets your decor and warms up your home. It says a lot about **your art of living and entertaining**, like a signature.

With its two lengths, 2.5 m and 3.5 m, and its generous drape: 170 cm wide, the Soline tablecloth keeps the codes of country houses, family homes, where it's nice to gather around a good meal.

It adapts perfectly to both small and large tables.

As for the napkins, sold in sets of 3, they measure 40x40 cm and can be folded in a thousand and one ways depending on the desired atmosphere.

To match with the tablecloth or mix and match, **they can be used daily as well as for a reception.**

Linen fibers are known for their high absorbency. This naturally hydrophilic fabric is therefore logically the ideal ally in the kitchen, especially for dishes.

This is how Soline dish towels allow you to **dry all kinds of glassware and plates quickly and without streaks**, while the apron, whose **sliding straps adjust perfectly** to your body shape, protects your outfit from any stains while you let your creativity flow:

in the kitchen, in the garden, in the workshop or elsewhere!

For cooking lovers, nothing beats having beautiful tea towels and large aprons in washed linen!

Psst, we have a secret!

The word is spreading by word of mouth, from one child to another... and everyone seems to agree on this point.

It's a fact: **the ponchos are sooo stylish and sooo comfortable.**

But that's not all! The cotton gauze, woven in 4 layers (220 g/m²), absorbs water super fast and dries just as quickly (well, almost ☺).

These ponchos are thus precious companions in the bathroom, for everyday use, as much as at the pool or the beach.

Whether they use it as an over-pyjama or after a bath, whether they're 2 years old or even 10, whether they like blue or pink:

the kids will surely find the one that was just waiting for them!

After the ponchos, here come the bathrobes for grown-ups!

You must know it by now: at *L'effet papillon*, everyone is entitled to their dose of softness.

He, she or they... You all deserve to feel good at home but above all **on yourself**.

And what could be better than our Gaïa cotton gauze to dress you in tenderness?

A unisex cut, two sizes, six trendy colors : that's all it takes to fill us with happiness and accompany us in every situation.

You got it:

the cotton gauze we love so much, so fluid and enveloping thanks to its airy weave, is so pleasant to wear that it is **our daily alter ego**, like a second skin: waking up, drying off, snuggling up, even lounging...

and all with style!

Speaking of style...

What do you think of this gorgeous tunic shirt?

Closed or open, tied or with a beautiful belt... it adapts to all looks, whatever the occasion.

So it's a must-have, whether after a bath, as a dress, or at the beach...

Why not in the city?

Orianne • 1m83

wears the L/XL tunic
rose pêche color

As with the bathrobes, there are two sizes - super flexible! - and the six colors - super trendy: no matter your tastes or body type, everyone should be able to treat themselves.

By the way, with its straight cut and 3/4 sleeves, this tunic shirt isn't just for women...

No, no... It was tested by a few male butterflies from the LEP team, worn open over a t-shirt, and the result is really sooo cool 😊!

So gentlemen, will you dare to wear the long tunic?

And why not go for bath linen too?

Good idea or not so good?

Gaïa has once again succeeded in pampering you even in the bathroom!

Guest towel, hand towel, shower towel and bath towel: 4 sizes of bath linen that go above and beyond for you... lucky you!

With their 4 layers and 220 g/m² weave, Gaïa towels are as soft and light as you could wish. **Their unique texture guarantees compact, absorbent linen that dries quickly.**

Space-saving and efficient, cotton gauze bath linen is **the dream companion in every situation**: in the bathroom or at the gym, at the pool or at the beach...

For our greatest happiness!

COATED POLYESTER

deco

Who doesn't want to add a bit of decor to their garden?

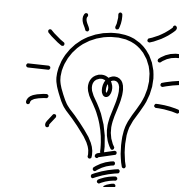

It's true, we spend a few lovely months outdoors and more and more we wish, even need, for our terrace to be, in a way, an extension of our living room. Who would dare say otherwise?

And what better than adding patterns and color to create an atmosphere that reflects us? However, indoor cushions are too delicate to stay outside and cushions designed for outdoors are often rather "plain." But that was BEFORE!

BEFORE we designed these gorgeous cushion covers!
10 patterns and 3 sizes for covers perfectly suited for outdoor use, hassle-free.

Your cushion cover, made of **100% coated polyester**, woven at 200 g/m², is specially designed to withstand the weather and fading. Indeed, **its fabric is made water-repellent thanks to a polyurethane coating** that acts as a barrier against rain. Its **light resistance** has also been studied, tested, and rated very good (4/8), as has its **abrasion resistance**, which prevents premature wear. Thus, this beautiful printed cushion cover promises to accompany you throughout the season, letting you enjoy its beautiful colors for a long time.

Just like Naia, you'll take care of it by washing it at 30°C to protect its coating, and letting it air dry.

But how do you fill these gorgeous covers, you may ask?
With Malo filling cushions, of course! Find them on page 390.

Léo, Bono, Hugo, Orlando, Pablo...
Do these names ring a bell?

Actor, musician, journalist, author...
We were inspired by public - and
charismatic ♥ personalities! - committed
to **environmental protection** for our collection
of **outdoor rugs** ecofriendly in rPET.

3REDUCE

CYCLE

But what is rPET?

The term PET refers to Polyethylene Terephthalate, from the polyester family. The little "r" - which makes all the difference! - means that this plastic is **recycled**... and not just any way!

It comes **from used bottles** that are given a new life.

The composition of these rugs, in addition to **reducing waste**, and thus pollution, makes them **naturally resistant to sun and weather**, with no additional treatment.

And that's not all! Their texture is **similar to wool** (yes, yes! and this, both to the eye and to the touch) while being much more **easy to care for and durable**, so they are ideal not only **outdoors**, in all weather, but also **indoors**.

In summary, they are stylish and super durable, they respect the environment, they come in **5 different models** and are available in **several sizes and shades** to match living rooms, bathrooms, but also terraces...
